Intro: **C Am7 F G** x2

**C** **Am7** **F** **G**  
Party gathers pace, there's laughter all around  
**C** **Am7** **F** **G**  
Girl sits by herself and wonders why she's come  
**C** **G** **C** **Am**  
But I know what she knows and I've seen her smile of gold  
**F** **G** **C**  
O Gabrielle, never bought or sold

**C** **Am7** **F** **G**  
Hair in wild array, life all of its own  
**C** **Am7** **F** **G**  
But the girl she still exists in her eyes of chestnut brown  
**C** **G** **C** **Am**  
Do you see what she sees? There's beauty in the trees  
**F** **G** **C**  
O Gabrielle, you are my breeze

**C** **Am7** **F** **G**  
Lips sip from a glass, red wine makes her cry  
**C** **Am7** **F** **G**  
Memories of a time when we waltzed in the moonlight  
**C** **G** **C** **Am**  
We would dance, how we danced, dancing round romance  
**F** **G** **C**  
O Gabrielle, curtsey to chance

**F** **G** **C**  
Life can be hard, you've scars to show  
**C/b** **Am7** **F** **G**  
Love flows freely from your soul  
**F** **G** **C**  
Life can be hard you don't complain  
**C/b** **Am7** **F**  
Some live for sun alone  
**G** **C** **C/b** **Am7**  
But Gabrielle, you blossomed in the rain  
**F** **G**  
O Gabrielle

**C**                    **Am7**                    **F**                    **G**  
Lonesome by decree, friend of field and flower

**C**                    **Am7**                    **F**                    **G**  
But the strong will walk alone, by faith they are empowered

**C**                    **G**                    **C**                    **Am**  
Do you believe what she believes? There's truth beyond deceit

**F**                    **G**                    **C**  
O Gabrielle, you turn the leaves

**F**                    **G**  
O we would climb mountains sublime

**C**                    **C/b**                    **Am7**  
We would swim through mist and thyme

**F**                    **G**                    **C C/b Am7**  
O Gabrielle My mountain rhyme

**F**                    **G**                    **C**  
O Gabrielle...
